

Welcome Employers to Polytechnic University of Puerto Rico 2005 JOB FAIR

POLYJOB FAIR 2005

The Job Fair at PUPR Since 1994:

Polytechnic University of Puerto Rico (PUPR) is pleased to announce the celebration of its annual Poly Job Fair on October 11, 2005. The POLY JOB FAIR is an activity designed primarily to provide employers and recruitment officers the opportunity to meet graduation candidates and recent graduates, while visiting academic facilities of the Institution, at a low cost.

The Poly Job Fair is a very attractive professional activity for employers where they can meet and interview a large group of excellent candidates for their job vacancies. It is an excellent opportunity for Polytechnic University students and graduates, to identify the characteristics that are required on the different work environments. At the same time, University candidates can discuss and share their career goals, interests, and professional objectives with employers.

Employers participating in the Poly Job Fair will be able to meet and interview candidates in the fields of Civil, Industrial, Mechanical, Electrical, Chemical, Computer and Environmental Engineering, Land Surveying and Mapping, Architecture, and Business Administration. Also, available during the Fair, will be candidates of the Graduate School in the fields of Engineering and Business Administration.

Some facts about Polytechnic University of Puerto Rico

The University is located in the San Juan Metropolitan Area, is the largest private Hispanic engineering school in the United States, and its territories. It is a non-profit co-educational, non-sectarian university fully authorized by the state licensing agency, the PR Council on Higher Education (PRCHE), and accredited by the Middle States Association of Colleges and Schools (MSACS). Five engineering programs, Civil, Industrial, Mechanical, Electrical, and Environmental, are accredited by the Accreditation Board for Engineering and Technology (ABET). The School of Architecture is accredited by The National Architecture Accrediting Board (NAAB).

Since its inception, PUPR has graduated 5,390 Hispanic engineers and surveyors. Its graduate program in Engineering Management has graduated a total of 602 students. PUPR 2004-2005 student body consisted of 5,724 students. Seventy three percent (73%) of them were enrolled in engineering or land surveying programs and seventy-seven percent (77%) were male and came from diverse backgrounds.

Overall, the School of Engineering is ranked the twentieth (20th) largest among the 300 ABET accredited schools in the US Nation. The following table summarizes the current ranking of the different engineering programs offered at PUPR as reported by Engineering Workforce Commission (EWC).

PUPR Engineering Program Rank Among Similar Programs Accredited by ABET

Students Registered	Rank
Civil Engineering	1
Environmental Engineering	1
Electrical Engineering	6
Industrial Engineering	17
Mechanical Engineering	33
Women in Engineering	39

Uniqueness

- Located in the Heart of the Metropolitan Area of San Juan, close to private industry and government agencies.
- Faculty actively involved in professional practice.
- Provides more than 50% of the current engineering workforce in Puerto Rico.
