

July 20, 2010

TO ALL UNIVERSITY COMMUNITY

Ernesto Vázquez-Barquet
President

Following our policy to inform our Academic Community all the important events in our Miami Campus, I proceed to inform those actions.

Campus Improvements:

The following improvements were made in our Miami Campus during this past year.

1. Increase the Internet bandwidth to 10 MB.
2. VPN/Firewall
3. Virtual Library
4. New telephone communication system based in the VOIP technology
5. Installation of new rugs and painting of offices

In addition, in February of this year, we began the installation of our new telecommunications infrastructure. This will allow a faster campus wide digital communication. This will further facilitate and improve our distance learning courses, as well as aid our Institution in participating in the most advanced network of research and development worldwide.

License and Accreditation:

This year, the Commission for Independent Education granted the renewal of our operating license. Also we are accredited by the Middle States Commission on Higher Education.

Enrollment Fees:

Enclosed you will find as Attachment "A", a list of the enrollment costs and general fees for the Academic Year 2010-2011 to be effective the FALL 2010 term.
