Re: Campus Crime Report

In order to prevent future incidents that would place students, faculty, and staff at risk, we suggest the following precautions:

1. Notify university personnel immediately if there are any circumstances in which there are suspicious persons or unusual circumstances.
2. Avoid walking in isolated and poorly lit areas of the campus.
3. Avoid parking outside of the campus area.
4. If you leave your car, ensure that the car is locked and the motor turned off.
5. When walking towards the car make sure to take keys in hand.
6. Do not walk by oneself in isolated areas such as bathrooms, stairs and parking lots.
7. Park car in areas which are well lit and heavily populated.
8. Avoid wearing expensive jewelry and other items that would illicit attention.
9. Do not leave valuable objects within exposed areas of the car, or wait to arrive at destination to hide these objects in the trunk.
10. Close and secure car.

In order to comply with the policies of the institution and the "The Student Right to Know Act" below is a statistical report. If you require clarification on these policies please contact the University personnel.
