### Overview

The Graduation Rate Supplemental component allows institutions to report on the progress of students from previous cohorts who were enrolled in long programs. Long Programs include 5-year bachelor programs, as well as 3-year programs at 2-year institutions. Because these students would not have been given the entire 150% of normal time to completion when reporting in the regular Graduation Rate component, the Supplemental tracks these students longer and reports on their progress.

### Data Reporting Reminders

The cohort of students carried over from the previous cohort can not be changed. The institution should only update the number of students who completed, transferred out, or those who became exclusions.

2010 IPEDS Graduation Rate Component Supplemental Data Summary

IPEDS collects important information regarding your institution. All data reported in IPEDS survey components become available in the IPEDS Data Center and appear as aggregated data in various Department of Education reports. Additionally, some of the reported data appears specifically for your institution through the College Navigator website and is included in your institution’s Data Feedback Report (DFR). The purpose of this summary is to provide you an opportunity to view some of the data that, when accepted through the IPEDS quality control process, will appear on the College Navigator website and/or your DFR. College Navigator is updated approximately three months after the data collection period closes and Data Feedback Reports will be available through the ExPT and sent to your institution’s CEO in November 2011.

Please review your data for accuracy. If you have questions about the data displayed below after reviewing the data reported on the survey screens, please contact the IPEDS Help Desk at: 1-877-225-2568 or ipedshelp@rti.org.
