1. Go to **System Preference**

2. Click on **Network**

3. Click on **Advanced**

4. Click on + to add the Network Name

5. On **Network Name** type **ORLPWL** (capital letter).
6. **Security** select **802.1X WEP**

7. On **User Name**, you must type **STUDENTS\_studentid**. The studentid is the one you use for blackboard or your email. Usually is your last name & _ & student number. Example martinez_9754. The **Password** is the one you use for outlook and blackboard. On **802.1X**; select Automatic. Click on **ADD** to finish.

8. Once you click **ADD**, the process is done. The following window will show up.

9. Click **Apply** to accept all changes.
